No promising vision of foresight or improvements using proven quality approaches. Unsuitable working/life balance is the result of this ineffectiveness. Was this review helpful? Inspector of quality control (current employee) - Pineville, NC - 28 June 2022 Favoritism FavoritismA good place to work would not recommend working there showing the favoritism they lied today have done many things that were not professional this helpful review? Based on 104 responses to the survey for the quality control inspector of improvement (ex employee) - Pineville, NC - June 17, 2022get ready to work every single day. Overtime is mandatory. They are long hours exhausting for a bit of extraordinary pay, if you are actually paid what the website really offers. Otherwise you run \$ 4-\$6. They offer free work shoes once a year, but they consume 2 months due to all the standing and manual work we will help. If you show a direction, you know how to multi-compit, they will unload a ton of work in the lap and wait for you to work that workload every day without complaints. They have the most amazing people working next to you, though, makes it almost bearable. Almost. It's the demanding hours and the unorganized environment that I'd get tired of. Management has a shoddy way to prove they appreciate their employees. Human resources are for managers and not for employees. Short breaks, long hours, management/human resources was this review helpful? Yeshere are 1 useful review1 production operator (current employee) - Erie, PA - May 7, 2022 Leadership, the direction is not inclusive and culture is blame-oriented - used to be once once a time a blame oriented to be once once once a time once a fault was oriented to one fault - used to be a really good deal but lost its way. Selfish leadership now employees are well informed but not well rewarded management must listen more to this helpful review? Quality Assurance Specialist (current employee) - Erie, PA28 April 2022 GRANTIONS / Teamwork environment that promotes growth and success, always working to improve the structure and the company, dedicated staff, smiling faces support, colleagues, advancement was this review helpful? evaluate your recent condition to help other gluer folder operator (current employee) - Ne - 22 April 2022 if you want to work away your life, find a job here, very difficult to advance. Low pay for females, management is in the dark. Human resources are horrible, does not worry about the very short breaks of the employees, the direction is dark, only the human resources with the management, have never been useful this review? yeshere are 1 useful review1widget maker (current employee) - north carolina - 15 April 2022benefits are good, pay is not as high as it should be, no one can endure the stress of this place in the long term, there is no work - balance of life, people are constantly resigning, but open roles are not filled, rather duties are spread among the remaining employees that worsen work - the balance of life even worse, the staff hours must work every day and weekend, the problem is that people who make decisions to work on weekends should never be there alone, trying to keep good employees with \$ for their efforts is difficult because of the mentality "does not increase beyond 10%". It presents itself as a reluctance to fight for those who are worth fighting, people can simply get off the street to make more money and get a bigger signature bonus, some managers really appreciate the personal time and care, the advantages are good, the turnover, the pay is not as good as it should be, rule of 10.% the company that manages the fsa is terrible (wex), it is necessary to send receipts for all this useful review? Feeder/Packer (former employee) - charlotte, nc - 28 March 2022 the job itself is not difficult, but the old machines make a lot of wasted products ... overall mgmt has improved a bit with the exception of a couple of bad apples, pay is much better than before... and I'm always under him, which makes the eresse eresse id eevni itnateserppar ivoun ia oroval ÄÄip ebbared e enosrep el noc otalrap ah atandrosid otlom ,atandrosid otlom ,atandrosid otlom atats "Ä remotsuC eruc elled enoiseg al 2202 oiarbfeef 32 - CN ,elliveniP -)etnednepid elautta(itneic ozivres)?enosnecer atseuq elitu atats Ä ,oroval across across the board. The dress code does not fit the environment. They have a dinosaur system and the smell is horrible Production works 7 days a weekWas this review helpful?YesThere are 1 helpful reviews1Sales (Former Employee) - Industry, CA - February 11, 2022I worked here for several years, management was always under pressure to produce, however not that many tools or resources were available. Plans or goals were not clear. No real incentive for employees to produce. Was this review helpful?Sales (Former Employee) - Elgin, IL - February 4, 2022You will be punished if you go to your supervisor with a problem. Infrastructure problems at the management level filters down to all.Do not work here.Was this review helpful?Offset assistant (Current Employee) - Indianapolis, IN - January 3, 2022I have worked here for over a year and a half. I have been denied a raise even though IÄÄÄve helped out a whole lot. They are very inconsistent. They need to learn how to treat people. Management, consistent workLack of organization, bad bonuses, unsteady hoursWas this review helpful?N/A (Current Employee) - Charlotte, NC - December 21, 2021Management Sucks, always at each other's throats about things that doesn't contain the job as in being professionally. Very Messy Management Team. Management always on vacationWas this review helpful?Product Marketing (Former Employee) - Erie County, PA - December 15, 2021People get promoted that are incapable of doing their work and they don't know what else to do with them. Company grows by doing hostile takeovers of other companies. Work will include trying to get information from coworkers that know they're being cut loose.Some team members are amazing, some are backstabbing. If you're fortunate, you'll work with a good group. Those at the top calling the shots are disconnected from the employees and projects may have unrealistic deadlines for a mountain of work.It's a global company, so there Travel opportunities for training events. Occasionally people are encouraged to move, unfortunately if the entire department is moved, your choices are: a) move but remain at the same payment and sign a 5-year contract that blocks you in a place that can or cannot have to have Ä higher cost of living b) take a different job that has nothing to do with your work experience c) be definitively deposited. Travel, some good members of the team this review was helpful? Employee (Current Employee) - Greensboro, NC - November 16, 2021 No balance of working life, 6/7 days a week, Poor training with just an ongoing training plan. Moral is hit due to more management shifts. Given the race around when you need help with any problem. Overtime, Management performance. Overtime, Balance of working life. Work out. No support. Was this review help? Sicä there are 2 useful reviews2 Mechanical Folder (former employee) - Moorestown, NJ - November 12, 2021 the working day of 8 hours was good the medical plan was good, the time available was most excellent Employees treated me ok, I learned a lot and grew with the company was this useful review? Worker/Helper (Current Employee) - Pineville, NC - 12 October 2021 The company has ample space for growth and advancement. Cìe warn whether the management begins to recognize and reward employees at every level of the organization. Has the pause areas have to be updated this review? Main item: Greensboro, NC - 28 September 2021 horrible environment, upper management is useless. Moral is super low, the management takes leaders to drink during Covid as a no mask moral booster.
