In the music section you can also sign up for the online subscription service called Google Play Music. Programs and apps must be installed on a system. Unlike the movie and TV section, content is either free or available for purchase in the book section, with no opportunity to rent in most cases. Google DevicesThe store also give you access to all the different smartphones, tablets and computers made by Google. These apps can be accessed with mouse and keyboard, digital pens and touchscreens. Microsoft Store apps are made for devices with touchscreens. Movie and TV content can either be rented for a 24-hour period or downloaded directly onto your device. They have a massive collection of electronic books available for download, and the latest audiobook releases. The download price is always higher because you now own the content and will always have the ability to watch it. BooksIf you are looking for electronic or audiobooks, the Google Play Store has you covered. Wait while the app downloads. This service does not give you ownership of the music you are listening to, but as long as you have an internet connection, you have access to all their content for a monthly fee. The Google Play Store is an amazing resource for online entertainment. You'll need to know how to download an app from the Windows Store if you run a Windows operating system. Apps for ComputersIn most cases, programs and apps or applications are synonymous. For a monthly fee, you can access all the content available through the store via streaming through the application. Due to the size of the database, you can usually search the store and find exactly what you're looking for. If it's not free, you'll click "buy" and enter your payment information. Downloading and InstallingTo download, you'll have the option to have use of the app on just the device you're currently using or across all of your options. Some apps are free, while others require payment. To download an app, peruse the app listings and click on an app you wish to have. Clicking on the devices tab will take you to the store, where you can find all of these electronics, in addition to the Nest line of home electronics, and all the Google home products. MusicNo online entertainment store would be complete without access to a music library, and the Google Play Store music section does not disappoint. Apps are also prevented from containing adult content. After purchasing and installing an app, you get free updates. Universal Windows AppsUniversal Windows apps are similar to Microsoft Store apps, but they'll work on other types of devices as well. Thanks to Microsoft, apps are also the go-to programs for computers running Windows 8 and Windows 10. Once installed, the software interfaces with the computer or device to perform specific actions. Computer apps usually have multiple features with extensive capabilities. The latest singles and full albums are available for download to any device. Depending on the type of app, you may need to have administrative permissions prior to installation. The Microsoft Store distributes apps and programs designed to run on computers with Windows 8.1 or Windows 10. Although there is some content available for free, most of the content that is available needs to be paid for or requires a subscription. The Google Play Store enables you to access a huge number of movies and TV shows that can be downloaded onto your computer, smartphone or tablet. It contains movies, TV shows, audiobooks, electronic books, smartphone applications and games, all available to download. How to Access the Google Play StoreIn order to access the Google Play Store, you need to first create a Google login (if you don't have one already). Once the download finishes, you can pin it to your start menu and launch it to use it for the first time. Users can also access the extensive library of older music that has been digitized into Mp3 format for easy download. This includes everything from the newest movie and TV releases to old classics. You can run one app at a time, or you can use more than one app concurrently. The Microsoft Store maintains strict approval of all apps to ensure they don't come with extra bloatware. The Google Play Store is one of the largest and most popular sources for online media today. This login will give you access to all the different services available through Google, including an email service, online file storage and of course the Google Play Store. Sort and search for apps for Windows 10, by device, for gaming, entertainment and business. Once logged in, you can set up an account to pay for content that is not available for free, and manage your paid subscription services that you can access through the store. Apps not optimized for touchscreens are commonly referred to as "desktop apps." Windows App Store for PCThe Windows App Store offers apps for download. If it's free, you'll see a "get" button to click, which will download it to your computer or device. All categories you would find in your local bookstore are available for download, including types of books you may not think of being available online, like textbooks, children's books and comic books. MORE FROM QUESTIONSANSWERED.NET There was a time when apps applied only to mobile devices. Once you're logged in and have an account set up, it's all available to rent or buy. MORE FROM QUESTIONSANSWERED.NET These apps will also install on desktops and laptops with Windows 10, tablets running Windows 10, Xbox One systems and smartphones running Windows 10 mobile. Because there's some overlap with app names, it's easy to get confused about the app you need for your computer or device.
